

A SHORT GUIDE · WHAT IS IT?

How do you do?

A short guide to what we do.

A magazine show and a job platform with a clear mission: to help 16–30 year olds discover careers they're actually excited about — by unpacking the industries they love and live in.

24 INDUSTRIES

1000s OF JOBS

DAILY BRIEFINGS

HOWDOYOU.DO.GROUP

*no jargon.
no boring job boards.*

THE STARTING POINT

In 2026, millions of young people are leaving education with no idea what they want to do.

The narrative is bleak. Over a million young unemployed. The cost of living. AI taking all the jobs. A market taking its biggest hit since the pandemic (*City AM*, April 2026).

The How Do You Do Group exists to change that.

We're a community of young people, writers, comics, experts and producers — investing time, energy and experience to turn traditional business podcasts and dull career websites on their head.

We're an entertaining magazine show. And a job platform with a clear mission. We help 16–30 year olds discover careers they're excited about — by unpacking the industries they love and live in, and seeing things from the inside.

”

No jargon. No boring job boards. Honest, fun (and funny) conversation, real experiences and practical insight. And thousands of live tips and jobs every day.

THE 8 TABS · EVERY INDUSTRY

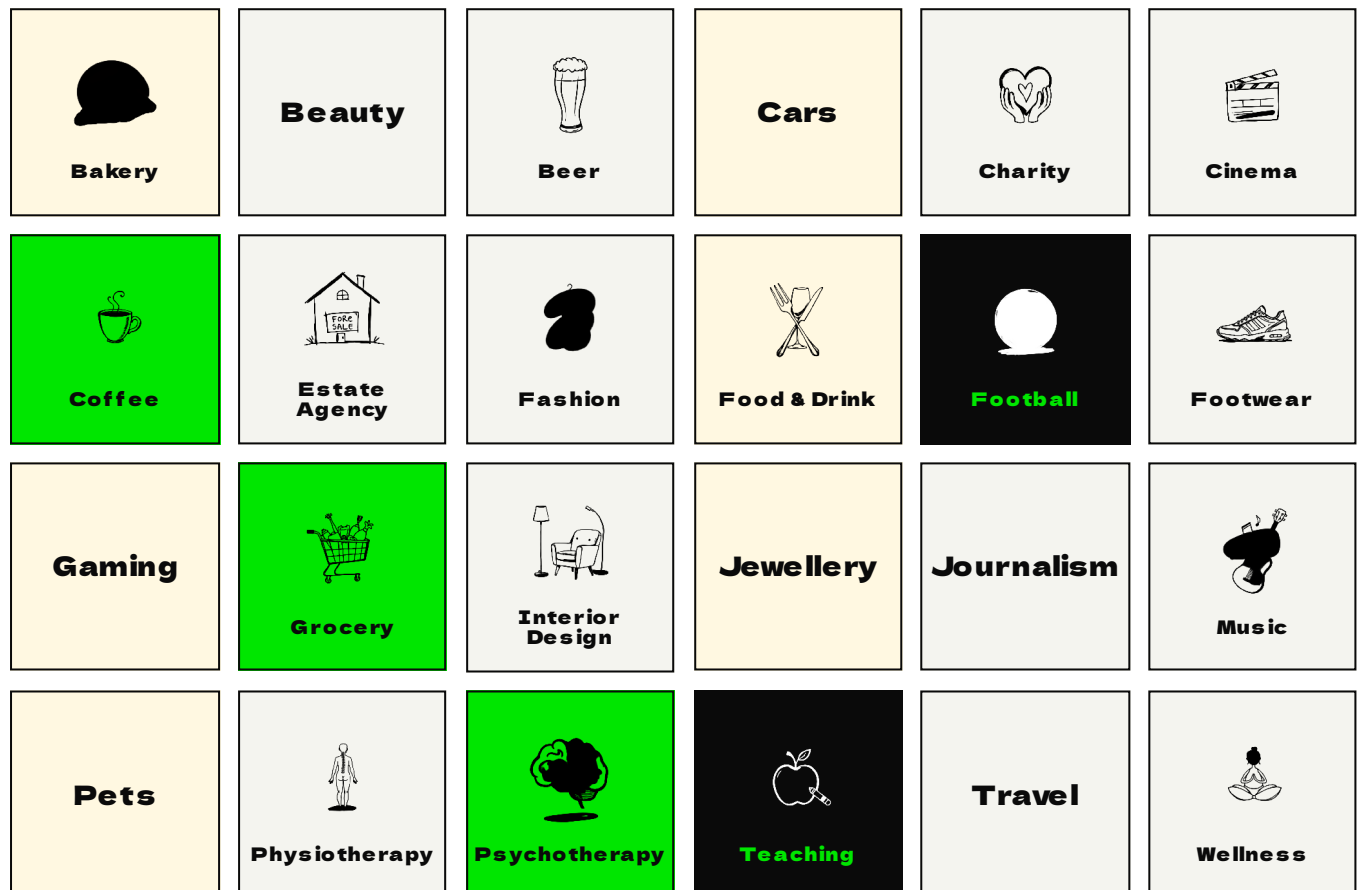

Every industry follows the same shape. Eight chapters from planning your route in to landing the job.

- 01**  **Plan.**
A printable career map of the industry — every role, where it sits in the value chain, what it pays.
- 02**  **Read.**
The best journalism, Substacks and breaking news, filtered for UK business relevance — never noise.
- 03**  **Listen.**
Curated podcasts and our own AI-synthesised morning briefings in a BBC Business / Monocle voice.
- 04**  **Watch.**
Career-focused YouTube channels and TikTok creators — never hobbyist content, always insider.
- 05**  **Who?.**
Founders, operators and rising names. 'Day in the Life' profiles built from real CVs — zero invention.
- 06**  **Attend.**
Live events, networking, festivals and conferences worth your time and travel.
- 07**  **Learn.**
Courses, apprenticeships, degrees and short modules from trusted UK and US providers.
- 08**  **Jobs.**
Live roles, scraped daily from over 90 company career pages — internships, grad schemes, full marketplace.

24 LIVE INDUSTRIES

Pick the world you live in.

Industries are organised by the things you already love. Each one has its own podcast, daily briefing, career map, company directory and live job feed. New industries added monthly.

YOUR TOOLKIT

Six tools that do the heavy lifting.

Built around a smart matching algorithm that learns from your profile, behaviour and search history — with a passion boost for the things you actually love.

Howdy.**YOUR AI GUIDE.**

A floating chat assistant that knows the platform inside out. Tailors your plan, suggests industries, surfaces jobs.

Understand Me.**IDENTITY-FIRST CAREER MAPPING.**

Upload a CV or LinkedIn — get a profile built on RIASEC and Holland Codes. Strict zero-hallucination policy.

CV Builder.**EXPERIENCE FIRST, QUALIFICATIONS SECOND.**

Turns the traditional CV on its head. Starts with what you love and the things you've done.

My Jobs Inbox.**A PERSONAL FEED.**

Weighted matching by level, salary, industry, role, location — plus a 'passion boost' for things you love.

Application Helper.**GET THIS JOB, FASTER.**

Generates tailored cover letters via Gemini, grounded in the job description and your profile.

Daily Digest.**INDUSTRY BRIEFINGS, WEEKDAY MORNINGS.**

Magazine-style newsletter per industry — main news, people moves, the takeaway. Real editorial.

THE PASSION LAYER

Tell us what you love – we'll do the rest.

Onboarding starts with the things you actually care about outside of work — sport, music, food, fashion, gaming, travel. Pick a handful. They become signal: each passion maps to industries, companies, and roles you're statistically more likely to enjoy.

THE MATCHING ALGORITHM

Six weighted signals, one inbox.

Every job is scored against your profile in real time. The My Jobs Inbox sorts by total match — and learns from what you open and dismiss.

01 RIASEC fit. 40% Cosine similarity between your 6-dimension Holland code (Realistic, Investigative, Artistic, Social, Enterprising, Conventional) and the role's O*NET vector.	02 Industry match. 15% Direct match between the industries you've picked (and the ones implied by your passions) and the job's industry tag.
03 Work values. 15% Autonomy, stability, recognition, creativity, variety — your ranked values vs the role's typical values.	04 Career level. 10% Entry, mid, senior or executive — inferred from your CV and onboarding, matched to the role's seniority.
05 Location & salary. 10% Hybrid/remote preference, commute zone, and a salary floor you set yourself.	06 Passion boost. 10% If a job sits inside an industry tied to something you actually love, it climbs the inbox.

THE EDITORIAL CODE

Six rules we don't break.

Editorial guardrails that shape everything we publish, scrape, synthesise and recommend. They're the difference between a careers platform and yet another job board.

No jargon.

If we wouldn't say it on a podcast, it doesn't go on the page.

No boring job boards.

Industry-first, then role. The opposite of how recruitment usually works.

Zero hallucination.

Career profiles are factual — built from real CVs and LinkedIn, never invented.

UK-first, US-second.

Editorial filtered for British relevance. American expansion underway.

Weekdays only.

Briefings and digests run Monday–Friday. We don't want to be in your inbox at the weekend.

Build experience first.

CVs start with what you love and what you've done — qualifications come second.
